JAPAN RECRUITMENT

MESSAGE FROM THE CEO

Greetings and welcome to Connect Japan Education Consultancy. I, Deepak Kumar Thapa, serve as the CEO of Connect Japan Education Consultancy. My journey in Japan began in 2004 when I arrived as a student. After completing four years of academic studies, I gained three years of valuable professional experience working at a trading company. In 2012, I took the next step and established my own company. As a business owner, I have been involved in various industries, including operating restaurants, trading apparel and miscellaneous goods between Japan and Bangladesh, and selling second-hand branded goods to Western markets through online platforms. Building on the knowledge and experience I gained in Japan, I also established a trading company and a Japanese language school in Nepal last year. Connect Japan Education Consultancy is dedicated to not only teaching the Japanese language to students aspiring to study or work in Japan but also providing them with comprehensive knowledge of Japanese culture, customs, and professional etiquette. At Connect Japan, our experienced instructors – who have lived in Japan for many years, graduated from Japanese universities and vocational schools, and have extensive professional experience – teach both the Japanese language and essential cultural understanding. In addition, we regularly invite Japanese volunteer teachers to offer students direct insights into various aspects of Japanese society and culture. We are fully committed to supporting individuals in achieving their goals of studying or working in Japan. Thank you very much.
